AIRBNB SUCCESS STORY

Welcome to "Shark Rock City," where KISS will perform a live set off the southern coast of Australia to entice sharks, who love the low-frequency sounds of rock and roll.

As KISS rocks out above water, you'll also get to see what's down under it. Watch from a glass bottom boat as the music attracts the legendary band's biggest (underwater) fans. KISS has played plenty of wild shows in the past, but this one will top them all.
